TUMPUDI AUTOMOTIVE
INNOVATION IN ELECTRIC MOBILITY

Built for Real India

WHO WE ARE

Tumpudi Automotive is an Indian innovation-driven company focused on practical, affordable and sustainable mobility for real-world India.

Indian Innovation
Home grown solution for Indian roads & climate.

Practical Technology
Reliable, field tested for day-to-day life.

Affordable Mobility
High value for every individual customer.

Cleaner Tomorrow
Lower emissions and greener communities.

INDIAN INNOVATION | **PRACTICAL TECHNOLOGY** | **AFFORDABLE MOBILITY** | **CLEANER TOMORROW**

OUR MISSION

To make clean mobility accessible everywhere — not just in big cities, but also in the places where India actually moves.

Smarter Mobility. Cleaner India.

TUMPUDI AUTOMOTIVE
INNOVATION IN ELECTRIC MOBILITY

A Smarter Way to Move India

THE PROBLEM TODAY

Electric mobility in India still faces real challenges, especially outside major cities.

Range Anxiety

What if I'm stranded far from a charging point?

Limited Charging Availability

Government's current focus is on major cities and highways only.

High Running Cost

Regular fuel expenses keep increasing.

Growing Emissions

Contributes to air pollution and a less healthy tomorrow.

India needs a 2-wheeler built for real roads, real distances and real life.

Smarter Mobility. Cleaner India.

TUMPUDI AUTOMOTIVE
INNOVATION IN ELECTRIC MOBILITY

A Smarter Way to Move India

OUR SOLUTION

A practical 2-wheeler designed for real Indian conditions.

150+ km
Pure Electric Range
(single charge)

400+ km
Off-Grid Capability
(with 5L fuel)

Lower Running Cost
More savings, every day.

Cleaner Future
Lower emissions for greener communities

HOW IT WORKS

Ride Electric Everyday
Go up to 150+ km on battery.

→

Petrol Engine Recharges Battery
In-built charging station for extended range.

→

Keep Going Without Worry
Total range of 400+ km.

BUILT FOR REAL INDIA

- Cities and Highways
- Towns and Semi-Urban Areas
- Rural Roads and Hilly Terrain
- All Weather Conditions

TUMPUDI AUTOMOTIVE
INNOVATION IN ELECTRIC MOBILITY

Built for Real India

KEY BENEFITS

CLEANER · MORE FREEDOM · DESIGNED FOR REAL LIFE

Longer Range
Go further with confidence

Lower Running Cost
More savings, every day

No Charger Dependence
Freedom to travel anywhere

Reliable & Practical
Built for Indian roads & climate

Cleaner Mobility
Lower emissions for a healthier future

Ideal for Real Use
Commuters, delivery & rural mobility

MADE FOR EVERY JOURNEY

Daily Commuters
Skip the charging queue in city traffic

Delivery & Logistics
More kilometres per day, fewer stops

Rural & Semi-Urban
Goes where chargers don't

Smarter Mobility. Cleaner India.

LET'S BUILD A CLEANER FUTURE TOGETHER
